#### INSTRUCTIONS

Applicants seeking authority to construct a new commercial, noncommercial or international broadcast station, applicants seeking authority to obtain assignment of the construction permit or license of such a station, and applicants seeking authority to acquire control of an entity holding such construction permit or license are required to afford equal employment opportunity to all qualified persons and to refrain from discrimination in employment and related benefits on the basis of race, color, religion, national origin or sex. See Section 73.2080 of the Commission's Rules. Pursuant to these requirements, an applicant who proposes to employ five or more full-time employees must establish a program designed to assure equal employment opportunity for women and minority groups (that is, Blacks not of Hispanic origin, Asians or Pacific Islanders, American Indians or Alaskan Natives and Hispanics). This is submitted to the Commission as the Model EEO Program. If minority group representation in the available labor force is less than five percent (in the aggregate), a program for minority group members is not required. In such cases, a statement so indicating must be set forth in the EEO model program. However, a program must be filed for women since they comprise a significant percentage of virtually all area labor forces. If an applicant proposes to employ fewer than five full-time employees, no EEO program for women or minorities need be filed.

**Guidelines for a Model EEO Program and a Model EEO Program are attached.**

**NOTE:** Check appropriate box, sign the certification below and return to FCC:

☐ Station will employ fewer than 5 full-time employees; therefore no written program is being submitted.

☒ Station will employ 5 or more full-time employees. Our Model EEO Program is attached. (You must complete all sections of this form.)

I certify that the statements made herein are true, complete, and correct to the best of my knowledge and belief, and are made in good faith.

## GUIDELINES TO THE MODEL EEO PROGRAM

The model EEO program adopted by the Commission for construction permit applicants, assignees and transferees contains five sections designed to assist the applicant in establishing an effective EEO program for its station. The specific elements which should be addressed are as follows:

### I. GENERAL POLICY

The first section of the program should contain a statement by the applicant that it will afford equal employment opportunity in all personnel actions without regard to race, color, religion, national origin or sex, and that it has adopted an EEO program which is designed to fully utilize the skills of qualified minorities and women in the relevant available labor force.

### II. RESPONSIBILITY FOR IMPLEMENTATION

This section calls for the name (if known) and title of the official who will be designated by the applicant to have responsibility for implementing the station's program.

### III. POLICY DISSEMINATION

The purpose of this section is to disclose the manner in which the station's EEO policy will be communicated to employees and prospective employees. The applicant's program should indicate whether it: (a) intends to utilize an employment application form which contains a notice informing job applicants that discrimination is prohibited and that persons who believe that they have been discriminated against may notify appropriate governmental agencies; (b) will post a notice which informs job applicants and employees that the applicant is an equal opportunity employer and that they may notify appropriate governmental authorities if they believe that they have been discriminated against; and (c) will seek the cooperation of labor unions, if represented at the station, in the implementation of its EEO program and in the inclusion of nondiscrimination provisions in union contracts. The applicant should also set forth any other methods it proposes to utilize in conveying its EEO policy (e.g., orientation materials, on-air announcements, station newsletter) to employees and prospective employees.

### IV. RECRUITMENT

The applicant should specify the recruitment sources and other techniques it proposes to use to attract qualified minority and female job applicants. Not all of the categories of recruitment sources need be utilized. The purpose of the listing is to assist the applicant in developing specialized referral sources to establish a pool of qualified minorities and women who can be contacted as job opportunities occur. Sources which subsequently prove to be nonproductive should not be relied on and new sources should be sought.

### V. TRAINING

Training programs are not mandatory. Each applicant is expected to decide, depending upon its own individual situation, whether a training program is feasible and would assist in its effort to increase the available pool of qualified minority and female applicants. Additionally, the applicant may set forth any other assistance it proposes to give to students, schools or colleges which is designed to be of benefit to minorities and women interested in entering the broadcasting field. The beneficiary of such assistance should be listed, as well as the form of assistance, such as contributions to scholarships, participation in work study programs, and the like.

## MODEL EQUAL EMPLOYMENT OPPORTUNITY PROGRAM

### I. GENERAL POLICY

It will be our policy to provide employment opportunity to all qualified individuals without regard to their race, color, religion, national origin or sex in all personnel actions including recruitment, evaluation, selection, promotion, compensation, training and termination.

It will also be our policy to promote the realization of equal employment opportunity through a positive, continuing program of specific practices designed to ensure the full realization of equal employment opportunity without regard to race, color, religion, national origin or sex.

To make this policy effective, and to ensure conformance with the Rules and Regulations of the Federal Communications Commission, we have adopted an Equal Employment Opportunity Program which includes the following elements:

### II. RESPONSIBILITY FOR IMPLEMENTATION

(Name/Title) John T. Pritchard will be responsible for the administration and implementation of our Equal Employment Opportunity Program. It will also be the responsibility of all persons making employment decisions with respect to the recruitment, evaluation, selection, promotion, compensation, training and termination of employees to ensure that our policy and program is adhered to and that no person is discriminated against in employment because of race, color, religion, national origin or sex.

### III. POLICY DISSEMINATION

To assure that all members of the staff are cognizant of our equal employment opportunity policy and their individual responsibilities in carrying out this policy, the following communication efforts will be made:

The station's employment application form will contain a notice informing prospective employees that discrimination because of race, color, religion, national origin or sex is prohibited and that they may notify the appropriate local, State or Federal agency if they believe they have been the victims of discrimination.

Appropriate notices will be posted informing applicants and employees that the station is an Equal Opportunity Employer and of their right to notify an appropriate local, State or Federal agency if they believe they have been the victims of discrimination.

We will seek the cooperation of unions, if represented at the station, to help implement our EEO program and all union contracts will contain a nondiscrimination clause.

Other (specify)

#### IV. RECRUITMENT

To ensure nondiscrimination in relation to minorities and women, and to foster their full consideration whenever job vacancies occur, we propose to utilize the following recruitment procedures:

We will contact a variety of minority and women's organizations to encourage the referral of qualified minority and women applicants whenever job vacancies occur. Examples of organizations we intend to contact are:

American Business Women's Association  
NAACP

In addition to the organizations noted above, which specialize in minority and women candidates, we will deal only with employment services, including State employment agencies, which refer job candidates without regard to their race, color, religion, national origin or sex. Examples of these employment referral services are:

Job Training Partnership - Iowa Job Service

When we recruit prospective employees from educational institutions such recruitment efforts will include area schools and colleges with minority and women enrollments. Educational institutions to be contacted for recruitment purposes are:

Southeastern Community College - Burlington, IA.  
Iowa Wesleyan College - Mt. Pleasant, IA.

When we place employment advertisements with media some of such advertisements will be placed in media which have significant circulation or viewership or are of particular interest to minorities and women. Examples of media to be utilized are:

Local and Regional Newspapers including "The Iowa Hawkeye".

We will encourage employees to refer qualified minority and women candidates for existing and future job openings.

## V. TRAINING

- ☐ Station resources and/or needs will be such that we will be unable or do not choose to institute programs for upgrading the skills of employees.
- ☒ We will provide on-the-job training to upgrade the skills of employees.
- ☐ We will provide assistance to students, schools, or colleges in programs designed to enable qualified minorities and women to compete in the broadcast employment market on an equitable basis:

ENGINEERING STATEMENT

This Engineering Statement and the attached figures have been prepared on behalf of John T. Pritchard by B. Benjamin Evans of Evans Associates, Consulting Communications Engineers in Thiensville, Wisconsin, in support of an application for a construction permit for a new Class C3 FM broadcast facility to operate on Channel 276 (103.1 MHz) at Burlington, Iowa. No facility is presently operating on this assignment.

\*\*\*\*\*

**PROPOSED FACILITIES**

It is proposed herein to construct a new 136-meter AGL steel guyed tower to be used as the location of the transmitting antenna. The new facility will operate with 11.8 kilowatts effective radiated power and 145 meters antenna height above average terrain.

The proposed antenna location meets all minimum distance spacing requirements set forth in Section 73.207 of the FCC rules, with the exception of the present licensed facility of station WJEQ in Macomb, Illinois on Channel 276A (see Figure 4, attached); however, WJEQ has a construction permit to move to Channel 274B1. The Burlington FM assignment, for which application is hereby being made, is predicated on the licensing of WJEQ to the new channel.

The proposed facility will serve an area of 4,761 square kilometers and a population of 122,961 persons with a predicted 1.0 mv/m signal or better. The area was determined using numerical integration. The population was calculated on the basis of the 1980 U.S. Census figures, updated to 1986.

**BLANKETING**

The proposed blanket contour, calculated in accordance with Paragraph 73.318(a) of the FCC rules, extends 1.4 kilometers from the transmitter site. The applicant will resolve all known complaints of blanketing interference within this contour in accordance with Section 73.318.

**COVERAGE REQUIREMENTS**

The herein-proposed facility will cover all of the city of Burlington with a predicted 3.16 mv/m signal or better.

#### INTERFERENCE CONSIDERATIONS

There are no FM or TV transmitters or non-broadcast radio stations within 60 meters of the proposed transmitter site nor established commercial or government receiving stations within the blanket contour that are known to the applicant. The only FM station within 10 kilometers of the proposed FM station is KBKB-FM, Fort Madison, Iowa. There are no AM stations within 3.2 kilometers.

If instances of objectionable interference to any station, broadcast or non-broadcast, due to the proposed facility should arise, the applicant will cooperate fully, as appropriate, to eliminate the interference.

#### ENVIRONMENTAL CONSIDERATIONS

The site on which the proposed antenna tower will be built is not located in any area referenced in Section 1.307(a) of the FCC rules. The proposed construction will not involve significant changes in surface features.

The proposed project does not involve the construction of a supporting structure equipped with high intensity white obstruction lighting in a residential neighborhood.

The proposed facility meets the radio frequency radiation exposure guidelines recommended by the American National Standards Institute (ANSI C95.1-1982). Using the procedures outlined in OST Bulletin No. 65, the calculated worst-case power density due to the proposed facility at any point beneath the antenna two meters above the ground is found to be 0.049 mW/sq.cm., or 4.9% of the ANSI-recommended exposure level.

In view of the above, this proposal is not deemed to be a major environmental action.
